Student Notification

All the students of this college are hereby informed that as and when college will re-open for academics, un-vaccinated students shall not be allowed into college premises.

To ensure that our dear students do not suffer any academic loss, we are reaching out to them through this notification with a request to get themselves vaccinated at nearest Health Centre facility immediately.

Let us together ensure a fully vaccinated campus once we open college for academic session 2022-2023.

Don't deprive yourself of education by aversion to vaccination, which is only tested way of fighting COVID.
