## Drive to Clean-Up Water Bodies by NSS Units of College on 19.05.2022 at Verinag:

As an initiative for cleaning the water bodies of surrounding areas, the NSS Units of Government Degree College for Women Anantnag organized a cleanliness drive at Verinag on 19.05.2022. The main motto behind this cleanliness drive was to spread awareness among masses particularly in rural areas regarding the importance of having clean rivers and other water bodies for the survival of the present and future generations. The programme was divided into two parts. The first part included the cleaning of famous Verinag garden where the NSS volunteers collected the throw-away plastics thrown by the tourists and other visitors such as empty water bottles, juice bottles, polyethene, chips wrappers, etc. and the same was collected in the bins which was later on disposed off properly. After that the volunteers spread the awareness among the people

regarding the importance of having clean surroundings and particularly these tourist places which a vital source of revenue generation in Kashmir. All the people who were present there appreciated the efforts of NSS Volunteers and assured the volunteers that they will not litter in the surrounding areas. The second part of the drive included the cleaning of natural streams flowing in the Dooru area of Verinag. The Volunteers collected all the litter, plastic and polythene from the banks of the streams. The Volunteers removed the water clogging very easily by eliminating the blockades in its path to restore its natural flow. Our volunteers advised the locals not to dump the plastics near these water bodies as it negatively affects bio diversity of streams especially the fish species. After a hectic day of cleanliness, the volunteers on arriving back to the college received the appreciation of the Principal of the College Dr Irfan ul Majid for
